Attachments: Summary of Narrative Nutrient Criteria Interpretation for North Dakota Lakes v1 20190829.docx; North Dakota Conceptual Model Draft v1 20190904.pptx

Mike,

Can I please get a reminder/ update on where we are with this project? Is TetraTech waiting on data from ND? Or for EPA to set up another call?

I'm not sure what we identified as next steps but it seems like we should try to get things rolling again?

Tina

Hey all –

Attached are two documents to guide our discussion tomorrow.

The first is our shot at understanding how ND DoWQ interprets your standards relative to nutrients.

The second is a draft conceptual model of how nutrients influence lakes/reservoirs in ND and how those link through measurable indicators of exposure and effect to your management goals.

Talk with you all tomorrow!

MP
